

July 26, 2006

Mr. Doug Samuelson
Goslyn Environmental Systems
1536 Lantern Trail, Suite #2
Frisco, TX 75034

Dear Doug:

During the Fall of 2005 and Spring of 2006 I had the pleasure of working with you and your team in mitigating requirements of several Southern California cities which called for the installation of external 1000 gallon grease interceptors. These requirements associated with conversion of several of our existing Pizza Hut facilities to the WingStreet Brand concept were especially difficult, if not impossible, to meet due to limited space on site. Through the use of your Goslyn 40 "Grease and Oil Separator", we were able to mitigate these requirements and complete conversions to this new Brand concept which otherwise could not have been developed.

Your personal assistance and support, and that of your team, associated with the Goslyn product, were, in my personal opinion, instrumental in effecting a significant number of WingStreet conversions, and underscoring the success of this Brand initiative in Southern California.

I look forward to working with you and your Team on future projects!

Respectfully yours,

Ron Faris
Remodel Construction Manager
