

SCARBOROUGH
TOWN CENTRE

Memo

To: All STC Food Court Tenants
From: Steven Minielly, Operations Manager
Date: September 8, 2009
Re: *Oxford Properties & Scarborough Town Centre Greening Project*
Goslyn Grease Interceptor

As part of our greening project for Oxford Properties and Scarborough Town Centre, we are in the process of implementing a project that involves a very effective way of intercepting fats, oil and grease from kitchen sinks before it enters the drainage system.

We are working in collaboration with Goslyn RGM Environmental Grease Interceptors and started a pilot project at Pablo's Grill It Up here at Scarborough Town Centre. The project is very successful but it would be more effective and beneficial if all of our food court tenants would participate in the undertaking.

Our aim is to fully implement the project and we are authorizing Mr. Angelo Mikrogiannakis, President and representative of Goslyn RGM Environmental Grease Interceptors, to make presentations at your convenience regarding the product.

We will contact you soon and if you have any questions or concerns before we meet with you, please contact Jesse Ticsay, Operations Supervisor at 416 – 296- 4765 or myself at 416 – 296- 4757.
